**Requirements for technological equipping of computers
used by the participants of the IT competition:**

1. Stable internet connection used to solve competition tasks online (with minimum speed of 1 Mbit/s).
2. Microphones (built-in) and webcams (built-in or external). Headphones are not allowed.
3. Preinstalled environments for Python, C++, Java, or Pascal (as selected by the competitors). The most suitable programming environments may be selected by the competitors.

Recommended environments for various programming languages (selected by competitors):

- Python: PyCharm Community IDE, https://www.jetbrains.com/ru-ru/pycharm/download/#section=windows
- C++: Microsoft Visual Studio, https://visualstudio.microsoft.com/ru/vs/community/
- Java: IntelliJ IDEA, https://www.jetbrains.com/ru-ru/idea/download/

Pascal is not recommended for use. The maximum number of points can be accumulated only if the C++ programming language is used.
